

City of Trinidad Press Release

October 15, 2020

The City of Trinidad discourages trick-or-treating this year for Halloween. The California Department of Public Health's (CDPH) guidance is that trick-or-treating promotes congregating and mixing of many households which can increase the spread of COVID-19. The Humboldt County Health Officer encourages residents to find safe alternatives. As a result the City discourages trick-or-treating this year. Wearing face coverings, practicing social distancing, and avoiding gatherings are essential guidelines urged by CDPH.

Eli Naffah

City Manager

On behalf of the City Council
